

# Happi

Water repellent and  
minimalistic speaker

HAPPI is a Finnish word which means open, oxygen. The Happi loudspeakers can be used both indoors and outdoors. This design series has an extremely thin chassis. Thanks to the built-in magnets the sleek design of the grille is repeated throughout. All speakers are sufficiently powerful to fill acoustically charged spaces, such as your kitchen, bathroom or veranda, with the music you want. ArtSound has designed this Happi series to incorporate a special woofer and a swivel tweeter, controlled by a special filter. This means the sound they generate is much purer than other models, without losing their warmth.

# HPRO525

Treat yourself to some oxygen. HAPPI is a Finnish word which means open, oxygen. This HPRO525 makes the ideal partner. It creates the perfect mood for letting off steam, both literally and metaphorically. Thanks to the aluminium woofer and the swivel tweeter, it carries every detail a long distance.

Steam in your bathroom, both literally and metaphorically: the HPRO525 does the business!

## TECHNICAL SPECIFICATIONS

range	<50m <sup>2</sup>
sound quality	warm
system	2-way coaxial
woofer	5,25" aluminium cone rubber edge
